

FP Thermoform-/and combi packing line

Packing lines with or without thermoforms

FP Thermoform Packing line

Any type of thermoform machines can be combined with the new innovative FP Packing machine for vacuum packs => an automatic packing line with minimum space required.

FP Combi line with or without vacuum packing.

Flexible solution for round fish or vacuum packing.

Usage of same hopper, weighing system, lid applicator, strapping and rack stacker.

To be used according to season for fillets or round fish and save a lot of space/equipment.
