

Main graders 9-19 rollers

Main grader 9-19 rolls will be delivered pursuant to the task, species and quantity to be sorted.

IRAS TEMPO GRADER

The graders are made in several standard version with 7–19 rollers. Total lengths on rollers up to 5 m.

- Many adjustment possibilities means that the machines can be set to all pelagic fish.
- This means that we also have a machine that fits your needs.
- Our Tempo Graders are characterized by giving a very high grading accuracy.
- The unique spreading plate combined with the wave shaped inlet chute ensures that the fish always are turned right, and one by one pass to the rollers for grading.
- By use of several graders in series it is recommended to use automatic adjustment to achieve the same sort of all.
